Four fonts that let you create custom 2- and 3-letter monograms within a circle, with a black or white background and a choice of decorative.
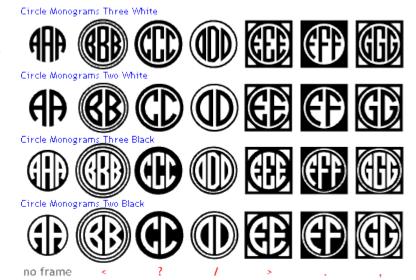

The DEMO version has some letters replaced by M. If you like it, send me $5 for the full set of four complete fonts in TrueType or Type 1 for Windows or for Mac.

Using the Circle Monograms fonts:

1. Install the font like any other. See the FAQ on my site or do a Google search: "installing fonts in [my operating system]".

2. Launch the application you're using them in and create a new document. Type a frame first if you want one (choices at right).

3. Type the left letter using lowercase (a-z)

4. Type the center letter using uppercase (A-Z)

Circle Monograms Two White
Circle Monograms Three Black
Circle Monograms Two Black

no frame   <   ?   /   >   .   ,
Type the key for the frame before the monogram letters.

5. The right letter is a bit harder. Use this chart to locate your third letter on the keyboard.

A … 1	H … 8	O … %	V … = or +
B … 2	I … 9	P … ^	W … [or {
C … 3	J … 0	Q … &	X …] or }
D … 4	K … !	R … *	Y … \ or	
E … 5	L … @	S … (	Z … ; or :
F … 6	M … #	T …)	So the CMH monogram in gray above
G … 7	N … $	U … - or _	would be typed ?cM8

6. That's it! For "A&B" style monograms, type ` or ~ instead of the middle letter.
